

PSYCG 1671 : Advanced Psychopathology

This psychopathology course focuses on complex case studies to provide greater breadth and depth of knowledge in the areas of clinical theory, research findings, co-morbidity, and socio-cultural diversity. Special consideration is given to conceptualization of problems from diverse theoretical orientations and perspectives. The course will be taught through lectures, class discussions, readings, and group presentations. Class assignments will incorporate differential diagnosis, case formulation, and socio-cultural considerations designed to mirror activities of practicing psychologists. Previously PSYCG 1771.

College

Clinical Psychology Program
