Once scheduled, make-up exams and course re-examinations cannot be changed or rescheduled.***

Friday 3/14
SPGC Meets ~11:00 am

Winter Quarter 2024-25 Electives

CPG reserves the right to cancel classes if a minimum number of students do not register.

- PPRAG 1338 Pharmacy Based Screenings (1.5qhrs)** Max: 60
Instructor: Dr. K. Johnson
Description: Through active participation in lecture discussions as well as laboratory exercises, the student will be prepared to develop health-screening programs in a variety of pharmacy practice settings. The focus is risk factor assessment and hands-on experience with technological devices related to cancer, cardiovascular disease (blood pressure and cholesterol), diabetes, and osteoporosis. This course will address OSHA training, CLIA regulations, policies and procedures, and implementation of screening programs. The course meets once weekly for either lecture or a lab/workshop. The course evaluation is based upon competency assessment of techniques during the lab/workshop, two group projects, and a final quiz.
Pre-requisite: PHIDG 1605 Integrated Sequence 5.
- PPRAG 1433: Introduction to Specialty Pharmacy (1.5qhrs)** Max: 24
Instructor: Dr. Janelle Vircks
Description: This elective provides an opportunity for students to learn current therapies, management of patients and other operations requirements within specialties including Solid Organ Transplant/BMT, Oncology, Inflammatory (Rheumatology, Dermatology), and Infectious Disease (HIV and Hepatitis C). The course is composed of alternating disease state overview presentations with student case study presentations the following week for practical application. A take home quiz designed in part by the student presenting will be completed by rest of class utilizing guidelines, class material and any references needed.
Pre-requisite: Enrollees must be in PS-2 year.
- PPRAG 1442 Advanced Geriatric Pharmacotherapy (1.5qhrs)** Max: 20
Course Director: Dr. Nicole Early
Description: This course is designed to enhance students' knowledge and skills related to geriatric pharmacotherapy. The course will provide an introduction to general principles of aging, roles of pharmacists in working with geriatric patients, and an overview of geriatric syndromes. The format of the course will involve brief lectures, and students will be expected to actively participate in discussions and case-based assignments. There will be an emphasis on managing the health care needs of patients with multiple comorbidities.
Prerequisite: Concurrent enrollment in or completion of PHIDG 1606 / PHIDG 1607
- PSCIG 1323: Use & Abuse of Drugs (1.5qhrs)** Max: None
Instructor: Dr. Oliver Grundmann
Description: This online elective course provides an in-depth review of neuropharmacology of substances of abuse including stimulants, depressants and inhalants, ethanol, opioids, hallucinogens, marijuana, anabolic steroids and other performance enhancing drugs. In addition, an overview of drug use, drug use as a social problem, drug products and their regulations, the nervous system, the mechanism of action of drugs, preventing substance abuse and dependence will also be covered.
Prerequisite: PHIDG 1503 Integrated Sequence 3
- PSCIG 1363 Introduction to Teaching & Learning (1.5qhrs)** Max: 8
Instructor: Dr. Melanie Jordan
Description: This course will introduce students to concepts in teaching and learning through discussion and hands-on teaching experiences. Students will learn to teach in a laboratory setting in a small group environment. Weekly self-reflection activities will help students focus on their strengths, weaknesses, and development as an educator over the course of the quarter.
Prerequisite: PSCIG 1541L and PSCIG 1542
- IPECG 1401C Improving Patient Safety 1 (1.5qhrs)** Max: 10
Course Directors: Dr. Cara Copeland (CDMA), Dr. Larry Sands (AZCOM); Dr. Shawn Tennant (CPG)

Description: This interprofessional on-line course will introduce students to how they can improve patient safety and reduce medical errors. The course instruction is through on-line Institute for Healthcare Improvement (IHI) educational modules, reinforcing that knowledge through authentic-team case study discussions and self-reflection writings. **Completion of IPECG 1401 and IPECG 1402 will lead to an IHI certificate.**

PPRAG 1301 (1.5 credits) or PPRAG 1302 (3qhrs): Special Project/Research

PSCIG 1301 (1.5 credits)* or PSCIG 1302 (3qhrs): Special Project/Research

Instructor: Faculty Sponsor

Time: Varies

Description: This research-based course provides an opportunity for students to work with individual faculty mentors on research projects of variable scope. All research projects require approval by the appropriate Department Chair and the Dean's Office. A completed and signed Special Project Request Form is required. **The Special Project Form must be completed, signed by all parties and turned into the Associate Dean, College of Pharmacy prior to November 27th in order to register for this elective.**

***PSCIG 1301 Experiential Teaching in Pharmacy Compounding – please reach out to Dr. Jordan (mjorda@midwestern.edu) directly for information and enrollment.**
